

INFRA TECH GLOBAL SERVICES

CAPABILITY STATEMENT

ABOUT INFRA TECH GLOBAL SERVICES

InfraTech Global Services, LLC (ITGS) is a privately held corporation that has a longstanding reputation for providing high-quality technology, cyber security, project management, system integrations, solar installation, organizational change, and turnkey solution capabilities. In addition, we offer a portfolio of service offerings with a holistic approach to planning, construction, installation, logistics, and warehousing services.

CORE COMPETENCIES

ITGS provides each client with unique and flexible solutions to guarantee successful outcomes. The technical and administrative staff of our company have expertise across a number of areas; however, the emphasis is placed on technical aptitude and ability to support and assist our clients with company growth. ITGS has qualified professionals with hands-on experience spanning over twenty years. We also possess a strong business and technical understanding coupled with excellent program management skills.

PAST PERFORMANCE

ITGS has successfully planned and executed projects in solar installation, infrastructure, cyber security, and video camera surveillance integration. ITGS provides a global perspective for international cooperation, government agencies, and municipalities to provide smart technology and eco-friendly products abroad, as well as provide a financial arm from grants and private funding.
